STATEWIDE AND REGIONAL NETWORKS

ABOUT

The Statewide and Regional Networks grant program contributes to the health and vitality of the creative workforce in California by creating a resilient network of arts service organizations and artists. Applicants must be arts services organizations with statewide or regional reach.

An arts service organization furthers the interests of artists, creators, and culture bearers. They also provide programs and services that are substantially focused on enhancing the capacity of individual artists and/or arts and culture organizations. They have as a core purpose the provision of services that assist or promote arts and culture. Together these organizations form unified networks at state and regional levels, working to ensure that the arts and culture sector across California continues to thrive.
