

California Arts Council
2022 (Final Round/Cycle C) Administering Organization - Arts Administrators Pipeline Fellowship
Program Description

The CAC recognizes that communities across our state have experienced systemic disparities and inequities within the field of arts administration. Some identified structural barriers to careers in the arts include the culture of unpaid internships within the arts, inaccessible educational requirements by employers, or geographic and/or social isolation from cultural institutions with paid staff opportunities.

The California Arts Council (CAC) is offering the **Arts Administrators Pipeline Fellowship** program as a continued investment in the future of a creative California, an inclusive workforce in arts and culture, and the vibrancy of the organizations that are creating and preserving the cultural identities of all California communities. This program will be to both support the professional trajectory of individuals who otherwise may not have the opportunity to develop their careers as arts administrators and to increase the capacity of arts organizations for authentic community engagement with those they serve.
