

State-Local Partnership 2019-21 Directory

The purpose of the State-Local Partnership (SLP) program is to foster cultural development on the local level through a partnership between the State and the counties of California. Through this program, county-designated local arts agencies receive general operating support and technical assistance from the California Arts Council.

Our California creative ecosystem is a tapestry of local arts agencies, nonprofit arts organizations, arts educators, cultural workers, individual artists, and community groups. This partnership enables individuals, organizations, and communities to create, present, and preserve the arts for all.
